

At a glance

SCHNEIDER GROUP has been helping businesses to expand into or within Eastern Europe, Central Asia and Caucasus since 2003. We help our customers establish branches and subsidiaries that are fully transparent to international management and compliant with local legislation, while our experts offer valuable advice on best practices to optimize processes, mitigate risks, and cut costs.

Building core business in a new market is the priority for our customers. While customers focus on establishing a strong presence in their new region, we take care of all supporting functions, such as accounting and payroll calculations, legal and tax consulting, import and certification, ERP systems implementation and more.
